

AGENCY OF HUMAN SERVICES: Integrating Family Services

Population Indicators

1. Vermont statute Act 186 (2014) establishes outcomes and indicators that are intended to align programs and strategies across the state toward the same ends.
2. Population Indicators will be available to IFS regions through an AHS Scorecard. This information will be used by IFS Regional Governance Teams to inform how they target supports and services.
3. IFS regions are not solely responsible for bending the curve on population indicators; rather there will be performance measures IFS regions have and the thought is those measures will positively impact trend data in whole population health. An entire community is responsible for population level indicators.

Act 186 Outcomes	1. Pregnant women and young children thrive/Children are ready for school	2. Families are safe, stable, nurturing and supported	3. Youth choose healthy behaviors/Youth successfully transition to adulthood	4. Communities are safe and supportive
Population Indicators	a. % of children who are ready for kindergarten in all five domains of healthy development	a. Rate of child abuse and neglect b. Number of Vermont families with one or more children who are experiencing homelessness	a. % of high school seniors who have a plan following high school b. % of adolescents in grades 9-12 who drank alcohol before age 13 c. Number of youth (12-21) who have adolescent well-care visits with a PCP or Ob/Gyn	a. Rate of children living below the 200% poverty rate b. Access to quality child care
Data Development Agenda for Population Indicators	<ul style="list-style-type: none"> • Depression screenings for pregnant women • Developmental screenings and referrals are occurring 	<ul style="list-style-type: none"> • Domestic Violence rates • ACES data 		<ul style="list-style-type: none"> • Crime rate • Stability in child care and educational settings
