Overall Goal of our work group: This workgroup convenes to use our collective resources to move autism services forward for children and their families in Vermont.

Strategic Plan Goals:

- A. To challenge and advise the current system to identify creative, collaborative, and flexible strategies to deliver family-centered care throughout a child’s journey from early identification and diagnosis through adult services.
- B. Increase access to assessments, supports and services up and through transition to adulthood.
- C. Educate community about inclusion and neurodiversity.

We will miss you Julie! Staffing for ABA programs: Continues to be difficult, hard to find RBT level staff. Laurie Mulhern shared that in Bennington County she’s seen the opposite trend with RBTs available but not enough BCBA’s to provide adequate supervision.

Agenda Item
Discussion on FAPE – what it is, and what it is not (it’s not the ‘best program’). IDEA does not pay for medical placements. IEP team determines placement; LEA determines setting. IEP team is not bound to medical expert prescription. They must consider the information but not bound by it.
